Hongrong, MAY 26TH. 1890.

THE system of interviewing, carried to such an extent by American journals, has it a vantages, but it also leads to some errors sometimes rather flagrant. The reporter do not always give a correct version of what they hear either from inability to comprehand the subject discussed or from failure to catch allthat is said, the result being a garbled above remarks were provoked by reading the account of an interview which a reporter of the consumption of the drug per head in these Renter.

China. Mr. Monsu is made by his interviewer to saythat "there is imported into Chius." HONGKONG TRADING Couch year from India, mostly from Coylon and Bombay, upwards of 10,000,000 pounds of onium." In another paragraph this amount is considerably reduced, the followworthy Acting Commissioner :- " The connow replete with a large and varied-Stock of sumption of opium imported from Persia decreasing." Now in one breath Mr. MORGE is reported to have said that the import the steamer. from India alone was "upwards of 10,000,000 stated that the combined import from and reports that they have succeeded in getting Fine Cashmere. Linke Thread, Silk, Merine, Persis and India was "about 10,600,000 the vessel off the rocks the further states that ounces." Where is the consistency of this to stop with concrete. story, and of what value are interviews so reported? We cannot believe Mr. Monse would have been such an idiot as to so so ignorant as to say that the Indian opium [23 goes without saying that he must be well unless in special circumstances. sware that the bulk of it is imported direct

from Calcutta. No opium comes here from Caylon, but in the placed blissfulness of cort in remarks in the Sunitary superintend. intense ignorance, the reporter imagin'ng ent's reporter line in the latter description; and those the American market. The English city of Havana proper has already insinuated that inthat Ceylon was a port of India jotted it down as near enough. And so doubtless it the whole of the correspondence is of apin on foreign buyers at a fer lower cost. The charges nuder those our rent lest sesson, but the laying gling in America. China souds no opium to this meno ment of a war of races begin by Cuban was for the residers of the Greenicle, who that there is nothing in the report to justify of tea houge, the commissions to middle men, down out equilibries that of last year by reason country. Not until England corrects the abuse negroes. I probably have learned to take their newspaper aliment with a considerable aprinkling The same being specially selected by our of sait. This is no doubt a fair sample of the manner in which this interviewing is carried out, and of the accuracy of the state- hanging dead in thir relience and year by wis men every ten season! Though the promot re hanging dead in thir relience and year by wis men every ten season! Though the promot re ments made in these reports. THERE is hardly anything in the world that

literal or metaphorical sense, says a New York contemporary. "Bore is therefore the main principle in life, and the argument was used with much success recently by the president of the Anglo-French Submarine Tunnel Company, when he urged his shareholders to get round the British Government's objection to the scheme by boring under the sea for coal instead of for the tunnel. He moreover impressed upon his hearers that it was the duty of the Govern- Terrace to Pottinger Street, down Pottinger ments to take the diamond drills and to Street to Proya and except to the West of prod their respective countries at every possible point, with a view to the development of latent resources. Gold mines, oil wells, the circumstances of the death by drowning coal beds, and heaven only knows what besides, may be hidden in the ground-beneath his a girl of 14 years, stated that abour feet. But not until we have made holes and the deceised were the only occupants of in every part of the map, shall we know how rich we are." What would the diamend taken a terson ashore. Witness was steering drills disclose to us in Hongkong? The recent discovery of silver and lead bearing teefs above Albany Ravine and at Kowloon is overload and never again came to the suf of suggestive of potentialities of wealth in the Colony as yet undreamed of. Whether the verdict of "Accidental death." minerale exist in such quantities as will pay to work remains to be proved. "Look see" operations are, however, to be pushed forward pan Mail writes under date 2 th April :- The call A. P. Nobbs, G. C. Cox, and H. Humphreys at once, and we sincerely hope the enter- or two after you receive this latter, the first v-a-Case. Per Bot, prise will be crowned with success. The result of the preliminary prospecting above the the subject than we can be. The new line ex-Albany Nullah has been deemed sufficiently pects to do a large business in carrying Japaness Jounts. encouraging to justify the driving of a shaft to Oregon, and it co vevin Or gon fi ur to J. into the bill side. The present feeling of the latter, as it is an excellent article and makes the by wr. Surrow. Mr. A. W. Maitland was republic towards the experiment may perhaps whitest and sweetest bread in the word; but if elected auditor. be described as one of benevolent scepticism, you send us any considerable number of Ja. The Charman-I think that concludes the but enough has already been disclosed to render something in the nature of a general geological survey of the island desirable. The Caylon Observer has recently been agitating for such a survey of that Colony. and remarks that "wholly unexpected resources may be lying beneath our fe-t, and 8 0.75 some at least of these might be revealed to us by an expert geological survey based upon the use of efficient drilling as paratus." The discovery of a lead mine in Hongkong was quite an unexpected occurrence, as the generally received opinion was that there were no minerals on the island—an opinion which found confirmation in the fact that the boring of the Tytam tunnel brought nothing of the kind to light. The scouring of the hillside by the great rainstorm of twelve months ago, however, disclosed a galena lode. and if one such lode exists it is possible there on recretary Windom to transmit to the Senate may be oftens. One other has, indeed, al ready been discovered at Kowloon. Should the further prospecting of these lodes lead

INGLISH AND CHINESE DICTIONARY WITH THE PUNTI AND MANDARIN PRONUNCIATION. An Anglo-Chinese Dictionary, published at the Daily Press Office. Hongkong.

For comprehensiveness and practical service his Work stants unrivalled. All: the new vords which the Chinese have of late years been compelled to coin to express the numerous objects in machinery, photography, telegraphy, and in science generally, which the rapid advance of foreign relations has imposed upon them, are here given in extenso. Each and every word is fully illustrated and explained, forming exercises for students of a most instructive nature. / Both he Court and Punti pronunciations are given the except a height of walking marked on the heat lisplays the success of an attempt to make the Chinese and English type correspond in the size of body, thereby effecting a vast somomy of mace / achieving a clearness not previously ittained, and dispensing with those vast margins and vacant spaces which have herstofore characterised Chinese publications.

To illustrate the vast scope of the work the 'ollowing facts are submitted force usideration:-Chalmers Vocabulary contains shout 16,000 Chinese characters, and Medhurst's English and Chinese Dictionary about 100.000 whilst this work contains more than 50,000 English words, and upwards of 600,000 Chinese characters. Again, despite all the grammars and other elementary works as yet published the student of this difficult lauguage absolutely requires examples to display the various applications and equivalents of different words which have one general meaning. Of these examples this work contains more than five-times as many as any other Dictionary hitherto pub-

For practical purposes the arrangement of the work is so complete, that a reference to its pages enables a person who understands English to communicate effectively with natives who understand nothing but Chinese. In this respect the work will be found indispensable to all Europeans residing in China, and to the natives themselves it explains subjects fully with which very few indeed of them are perfectly acquainted. To parties resident in England and interested

It comprises upwards of two thousand large London Mr. W. M. Wills, 181. Cannon St. quarto pages. 4 Vole Imperial Quarto, Price, \$20. A Large REDUCTION in PRICE is made to Purchasers of SIX or more Copies

in China it cannot but be invaluable occasion-
